

YUKON BUREAU OF STATISTICS

Yukon Labour Demand Survey 2016

Highlights:

- In the summer of 2016, 78.4% of employees in Yukon businesses and organizations (excluding Yukon government employees) were full-time workers; 87.2% of all employees* worked in Whitehorse.
- *Retail Trade* had 107 vacant positions in the summer of 2016; the highest number of jobs available was in the occupation *Sales representatives and salespersons - wholesale and retail trade*.
- As of July 31st, 2016, there were 5,400 employees employed by the Yukon government, 76.6% of them were employed full-time.

In the summer of 2016, the Yukon Bureau of Statistics (YBS) contacted Yukon businesses, non-profit organizations (NGOs), crown corporations, as well as First Nation and municipal governments, to collect information about their current employment situation, current vacancies and expected vacancies through 2017. **These data are presented on pages 1 through 10 of this report.**

For the Yukon government (YG), information on employment and current vacancies was derived from administrative data sources, and the information on expected vacancies was estimated using average growth and turnover trends. **The tables and analyses for YG are on pages 11 and 12 only and are based on these sources of information.**

Please Note: Not all organizations answered every question, therefore total numbers given in each category may not be consistent through all sections of this report.

¹ Includes businesses, NGOs, crown corporations, municipal governments, First Nation governments and development corporations.

Does not include Yukon government data, which is presented on pages 11 & 12.

² Includes Destruction Bay, Burwash Landing and Beaver Creek.

In the summer of 2016, there were 3,537 businesses and organizations in Yukon employing 16,682 employees. Of them, 78.4% were in full-time and 21.6% were in part-time employment. Whitehorse had the largest number of employees, (14,551 persons, or 87.2%), followed by Dawson City and Watson Lake with 944 and 280 employees, respectively.

*Does not include data for the Yukon government, which are presented on pages 11 and 12.

Reason for Not Having Employees, Yukon, 2016

About two-thirds of Yukon businesses and organizations (2,341) reported not having any employees at the time of the survey. The majority (83.6%) of these businesses (1,956) were *owner-operated only* and therefore, did not have any employees. *Temporarily inactive but will reopen* (124) was the next most common reason given for not having any employees. "Other" reasons included: not enough profit/money, business is too small, uses subcontractors, organization depends on volunteers, etc..

n.e.c. = not elsewhere classified

= data not available or not applicable. In some cases respondents were able to state what education level was required for a job vacancy but not the wage

Vacancies that required a Bachelor's degree had the highest average hourly wage (\$41.43). There was a high degree of variance in hourly wages for jobs requiring a bachelor's degree, ranging from a low of \$17.86 in *Sales representatives and salespersons - wholesale and retail trade* occupations to a high of \$52.26 in *Senior management occupations*. This is a difference of \$34.40 per hour.

Maintenance and equipment operations trades occupations had the largest range of average hourly wages from \$23.70 (no minimum education) to \$55.50 (apprenticeship or trades certificate or diploma).

For positions that required no minimum level of education, the lowest average hourly wage offered was \$12.50 in *Labourers in processing, manufacturing and utilities* occupations; followed by \$12.53 in *Service support and other service occupations, n.e.c.* and \$12.82 in *Service representatives and other customer and personal service occupations*. The highest average hourly wage offered was \$40.00 in *Specialized middle management occupations*, followed by \$29.45 in *Industrial, electrical and construction trades* occupations, and \$28.00 in *Administrative and financial supervisors and administrative occupations*.

Businesses and organizations expected an additional 1,369 job vacancies in 2016 and 2017, which included vacancies due to turnover as well as creation of new jobs. The occupation that had the most expected additional job vacancies was *Retail salespersons* with 140 jobs. *Outdoor sport and recreational guides* and *Food counter attendants, kitchen helpers and related support occupations* followed with 115 and 101 expected additional job vacancies, respectively.

The highest expected average hourly wage was \$40.87 for *Plumbers*, followed by \$40.00 for both *Banking, credit and other investment managers* and *Construction managers*. The lowest expected average hourly wage was \$11.07 for *Process control and machine operators, food, beverage and associated products processing*; followed by \$12.33 for *Food counter attendants, kitchen helpers and related support occupations*.

Yukon Government Current Employment, July 31, 2016

While the previous pages of this report analyzes information collected through a sample survey of Yukon businesses and organizations, information on the Yukon government's (YG) employment and current job vacancies was derived from YG administrative databases and expected job vacancies were estimated based on average growth and turnover trends. The following presentation of data and analyses are based on this information.

As of July 31, 2016, there were 5,400 employees employed by the Yukon government. Of them, 4,134, or 76.6%, were employed full-time.*

Of the 5,400 YG employees*; 3,815, or 70.6% were permanent; 1,421, or 26.3% were in temporary employment; and 236, or 4.4%, were seasonal employees.

Note: Yukon public schools were included in the Yukon government employment and vacancy information.

* The type of employment sub-categories may exceed total employees as some employees are simultaneously employed in more than one position.

Expected Additional Job Vacancies by Occupation, Yukon, 2016 and 2017

The expected vacancies for YG include both vacancies due to turnover as well as creation of new jobs. These estimates were generated by performing regression analysis based on trends from 2006 to 2016 to calculate the expected turnover and growth for 2016 and 2017. The number of additional vacancies was applied to the 2016 NOC structure to estimate expected hirings in 2016 and 2017. Education level required is based on Canada-wide data by NOC.
